Experience

Kodlab, University of Pennsylvania GRASP Lab Philadelphia, PA
Research Assistant February 2015 - Present
Designed a legged robot and assembled the mechanical and electrical components of the platform, allowing graduate students to more easily test kinematic theories of legged locomotion.
Side projects include a robot-mounted motorized camera, thermal and mechanical characterization of electric motors, finite element analysis (FEA) of structural components for weight reduction, and various rapid prototyping tasks.

College House Computing, University of Pennsylvania Philadelphia, PA
Information Technology Advisor August 2014 - Present
Assist students in the dorms with connecting to networks, removing viruses, setting up new devices, and general troubleshooting

The Franklin Institute Philadelphia, PA
Greeter, Guest Services May – August 2014
Answered questions while maintaining a welcoming environment for guests.
Science Presenter (volunteer) June 2011 - May 2014
Enhanced visitors' experiences by guiding them through interactive features in exhibits and assisting with hands-on science demonstrations
